

HOW TO USE AI TO HELP WITH TRADITIONAL ASSIGNMENTS

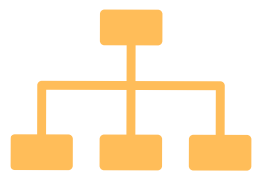

Think of AI tools as a virtual tutor – they can help you stay on track , but they don't do the thinking and writing for you!

Understand assignment

- summarize and simplify assignment instructions
- define key words
- explain concepts

Plan & structure

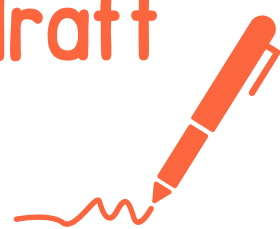

- help brainstorm ideas
- organize your notes
- develop an outline

Research

- find sources (always check sources & reliability of info!)
- summarize sources
- simplify complex language

Develop 1st draft

Do by yourself

usually you will create your first draft without using AI, to develop your thinking and writing skills and show your ideas

Review & edit

- fix spelling and grammar errors (don't put personal or sensitive info into AI tools)
- improve clarity and consistency
- check against rubric
